www.linkedin.com/in/26siddharth | https://siddharthprajapati.netlify.app/

DOB: 26/05/2002 | Address: New Delhi, India

#### **OVERVIEW**

- Enthusiast | Collaborative | Ready to Take Challenges
- Solved 150+ questions on GFG and 250+ on LeetCode
- I have worked on Technologies like ReactJS, SQL and Power BI.

# PROFESSIONAL EXPERIENCE

CodersCave

Aug, 2023 - Sept, 2023

Data Science Intern

- It was a virtual internship and I was tasked to develop, IMDB Data Analysis and Diabetes Prediction Model.
- Python & its libraries (NumPy, Pandas, Scikit-learn and Seaborn) and Jupyter Notebook were used.

#### **EDUCATION**

Discipline/ Specialization	School/ College	Board/ University	Year of Passing	Aggregate
Bachelor of Technology (Computer Science)	Rustamji Institute of Technology, BSF Academy, Gwalior	R.G.P.V.	2024	8.39 CGPA (till now)
Higher Secondary (12th)	CRPF Public School, Dwarka	C.B.S.E	2020	76.4 %
High School (10 <sup>th</sup> )	CRPF Public School, Dwarka	C.B.S.E	2018	70.6 %

#### **SKILLS**

# **Technical Skills:**

Python, C++, Power BI, Data Visualization, Data Scraping (Scrapy), SQL, HTML & CSS, Bootstrap, ReactJS, MS Excel, MS Word, MS PowerPoint, SharePoint

#### **Soft Skills:**

Communication Skills, Time Management, Punctuality, Quick Grasping Ability, Creative Writing

#### **PROJECTS**

# **Panoply of Words:**

- Developed a multi-functional web application that unifies dictionary, translator, and note-taking capabilities for a seamless user experience.
- Integrated Dictionary API, Google Translate API, and local storage using ReactJS to create a responsive single-page application.

# **IMDB Data Analysis:**

- Extracted meaningful insights from Top-1000 IMDB movie data using Python libraries, revealing patterns in ratings, genres, and critical reception.
- Created engaging visualizations with Matplotlib and Seaborn to effectively communicate findings.

#### **Unicorn Performance Overview:**

- Developed a comprehensive Power BI dashboard that visualizes the performance of unicorn companies, enabling stakeholders to track trends, identify top performers.
- Cleaned, structured, and analyzed extensive data, showcasing proficiency in data wrangling and analysis.
- Created interactive dashboards to effectively communicate key insights.
